

You read right!

Mean Cat Coffee is now carrying a small selection of premium quality organic Chinese loose leaf teas. I had several requests for teas and I finally found a wholesaler with the quality I was looking for. I have a limited selection available, but hopefully it will grow if the teas become popular.

Visit the [new Tea Page](#) to read more tea and to see what is available. You can also browse the selections through the "Tea" button on the top menu bar.
